The screenshot displays the 'Applied Discovery' web application. The top navigation bar includes links for CASE LIST, SUMMARY, SEARCH, PRINT, DATES, COLLECTION MAINTENANCE, REDACTION MAINTENANCE, and LOGOUT. The main interface is divided into several sections:

- Left Panel:** Contains a 'Select Query' dropdown, a 'Last Executed Query' section, and a 'Query Text' area with instructions: 'Search for documents which contain the...', 'Filter the results by documents in which display name of "Hans Unciene"', and 'Order the results by Production Source'.
- Center Panel:** Features a 'Print' button and a 'Printers' list. A printer selection dialog is open, showing details for 'HP LaserJet 4050 Series PS' at IP 10.1.1.124. The dialog includes fields for Name, Status, Type, Where, and Comment, along with 'OK' and 'Cancel' buttons.
- Right Panel:** Contains a 'Print History' table with columns for Job Name, Client Matter #, Job Status, Docs, Pages, Executed By, Execution Date, Query, and Template. The table lists several jobs, including 'Unciene Query' and 'another print...'. Below the table is a 'View all Print History' link.

The bottom of the interface shows a Windows taskbar with the Start button, taskbar buttons for Internet Explorer, and a system clock showing 5:27 PM.
